Sir:

Pursuant to 37 C.F.R. §§ 1.56, 1.97 and 1.98, applicants respectfully direct the Examiner's attention to two additional oppositions filed in Europe against European Patent EP 1 311 285, which corresponds to the instant application: one opposition was filed by Neose Technologies, Inc. and the other by BioGeneriX Ag.

A copy of the opposition papers received by applicant's European affiliate is enclosed. Documents A16-A21 listed on the enclosed Form PTO 1449 correspond to foreign documents that were cited in the above-mentioned oppositions, and have not already been cited in the instant application. These documents, copies of which are not enclosed because they are U.S. Patents or applications, are herein brought to the Examiner's attention.

Appl. No. 09/853,731
Filed: May 11, 2001

It is respectfully submitted that these documents are no more relevant than the references already of record.

The Examiner's attention is particularly directed to US 2004/0038878 which discusses injectable pharmaceutical formulations containing a protein, including for example an EPO, and at least one sugar as a soothing agent and having a pH of 6.5-7.4.

The Examiner's attention is also directed to US 2003/0092622 which discusses, inter alia, stabilized protein formulations containing tryptophan.

Consideration of all the documents cited on Form PTO-1449 is requested.

Respectfully submitted,
